

NAIMA SULTANA

Computer Science and Engineering Student

Detail-oriented Computer Science & Engineering (CSE) student with a strong interest in research, software project analysis, and problem-solving. I enjoy exploring modern web and application systems, learning Python and frontend development, and applying analytical approaches to design, evaluate, and improve software solutions. Passionate about research-driven development, I am motivated to contribute to projects that combine technical rigor, usability, and systematic analysis.

☎ 01824-424690 ✉ 202320000636@seu.edu.bd 📍 East Nakhhalpara, Tejgaon, Dhaka

EDUCATION

Bachelor of Science in Computer Science & Engineering (CSE)

Southeast University
2023 – Present
CGPA: 3.57

Higher Secondary Certificate (HSC)

Noakhali Govt. Women's College
GPA: 5.00

Secondary School Certificate (SSC)

Ispahani Public School & College
GPA: 4.67

ACADEMIC & INDUSTRY-ORIENTED PROJECTS

NavPath – Navigation & Path Planning System

Software Engineering Course Project

Role: Research & Analysis | Frontend Planning Support

- Conducted user research and requirement analysis to support frontend and system decisions.
- Collected user feedback through interviews for UI and feature planning.
- Assisted in project proposal preparation, process model selection, and objective definition.
- Performed ROI, risk, and cost-benefit analysis.
- Supported documentation, PPT preparation, and final reporting.

Skills Applied:

Requirement analysis, user research, product thinking, frontend planning, teamwork.

Battleship Game – Group Project

-Developed a console-based game focusing on logic design and gameplay testing.

-Collaborated with team members to refine rules and user interaction.

Bank & Café Management System (Java)

- Developed a menu-driven system using object-oriented programming (OOP) concepts.
- Managed data input, billing logic, and system operations.

Software Engineering Knowledge

Requirement analysis & documentation
Process model selection
Sprint & task planning
Risk and ROI analysis

Programming Languages

C
C++
Java

Development Tools

VS Code
Android Studio
Code Blocks
MS Word, Excel, PowerPoint

Currently Learning

Frontend Development &
Python

ACHIEVEMENTS & ACTIVITIES

Participated in school science fairs
Volunteered in academic and cultural programs
Acted as **Class Representative**, supporting coordination and communication

LANGUAGES

Bangla – Native

English – Fluent

Hindi – Intermediate

INTERESTS

Frontend Development

Web & App Technologies
